ALPEDA®

YOUR SALON DESIGNER

ABOUT US

Alpeda, which has exported to 76 countries on 5 continents, was founded in 1978 in a small workshop of 50m2. under the company name Filiz Celik San. Tic. A.Ş. was established under the company name. Marmara throughout Turkey in 1990, by completing the dealership structure throughout Central Anatolia, Black Sea, Aegean, Southeast and Eastern Anatolia, it has started to make a difference with its innovative touches to hair salons in all parts of Turkey. Filiz Celik, which has become Turkey's leading hairdressing furniture manufacturer in a shora Alpeda, which has exported to 76 countries on 5 continents, was founded in 1978 in a small workshop of 50m2. under the company name Filiz Celik San. Tic. A.Ş. t time with its quality furniture and trouble-free service understanding, is an architecture with completed project activities have started.After a successful developments in Turkey, company has decided to expand its business to abroad, registered its name as Alpeda all over the world and started exporting with this name in 2002. By reaching over 10 countries, Alpeda has branded its work with its labeled furniture and has become a rapidly rising company in the international sector. In 2006, Tübitak RD project had the success of manufacturing Turkey's first electric barber chair and in 2008, after that second time Tübitak Project achieved success with Turkey's first electric washing set, proving it is the innovative leader of hairdressing salon design in Turkey.

In 2016, it expanded its business volume by opening 1450m2 factory showroom in Istanbul. It has become a preferred brand by the whole world with the international fairs we are participate in and has set a historical record in exports in 2017. It exported 48% of its production to 40 countries on a distributor basis in 3 continents. Alpeda now exports to 76 countries in 5 continents. Thanks to its work that prioritizes environmental sensitivity, DIN EN ISO 14001:2015 has been certified as an Environmental Management Certificate and K-Q TSE-ISO-EN 9001 Quality Certificates with the material quality of its products derived from the value it gives to customers. Since its establishment, it has aimed to walk to success by prioritizing customer satisfaction and has become the leading company in the sector.

MEETING

Our sales specialist talks with the customer over the phone or visits on-site, if possible. According to customer's wishes, budget, position, customer profile, product and project advice is delivered by expert. If the customer gives approval, it goes to the next stage.

Our expert architectectural team with 40 years of experience aiming to create salon of your dream. Our expert team will respond your expectations timely and affordable way.
In modern facilities of 6000 m^2 ready-to-meet products to be produced under ISO-EN 9001-2008 quality assurance. Alpeda architects and experience construction expert will be pleased to take their time to find out your salon needs.After you have approved 3D render of your salon project please have a relax while we finalising your salon.

ARCHITECTURAL MEASUREMENT

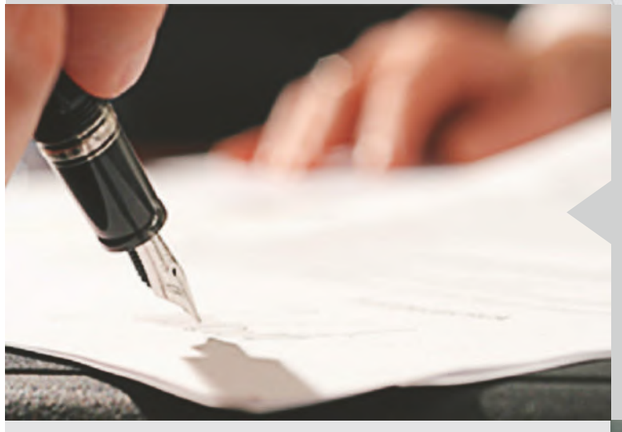

The sales specialist takes the architectural dimension of the salon and takes his photographs. The project along with the product information to be used is transmitted to the architect.

SETTLEMENT PLAN

The architect draws a two-dimensional layout plan in the light of incoming information. This plan is presented to the customer. Approval is taken and the next step is passed.

SIGNING THE CONTRACT

The contract signing and payment must be made in order for the special production products to pass to the production stage.

3D RENDER PRESENTATION

If the customer wants a 3D realistic computer rendered image is taken and presented. This presentation gives a clear idea of how it will look when the salon is over.

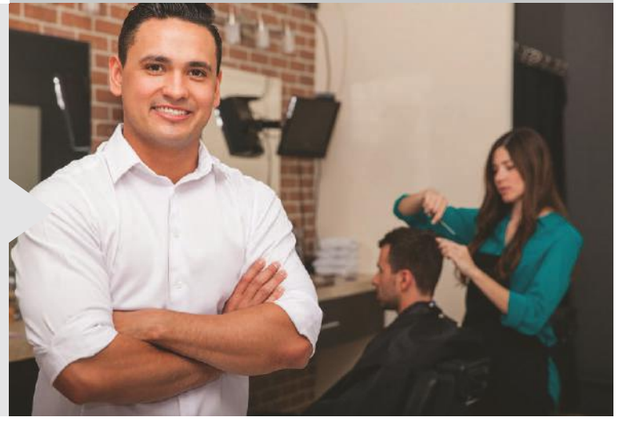

CONTRUCTION and ASSEMBLY

The construction of the salon starts and the products are assembled after the completion of construction. If the customer wishes to construct the building, the necessary product drawings and material information will be sent to the salon or to the construction company. Controls are made during the construction phase.

PROJECT COMPLETION

The products are tested after installation and delivered to the salon.
