

ALPEDA®
Beauty

About Us

Alpeda was founded in 1978 in a small workshop of 50 m² in Filiz Çelik San. Tic. A.Ş. was established under the name. In this journey based on quality and innovation, we started to offer modern and functional solutions to hairdressing salons by creating a strong dealer network throughout Turkey. In a short time, we made a difference in the sector by becoming Turkey's leading hairdressing furniture manufacturer. With the aim of carrying our achievements abroad, we started exporting under the Alpeda brand in 2002. By 2004, we reached 10 countries and took firm steps towards becoming a global brand. Today, Alpeda exports to 76 countries on 5 continents and has a strong position in the international market. In recent years, we have not only limited our business model to product sales, but also started to offer turnkey projects by undertaking the design and architectural project design processes of hairdressing salons. With this transformation, we offer our customers not only furniture but also a complete salon concept by adding construction and application services to our portfolio. By carefully designing every detail, we provide salon owners with the best solutions in terms of functionality and aesthetics, not just decoration.

Putting innovation at the centre of our business, we developed Turkey's first electric barber chair in 2006 within the scope of TUBITAK R&D project. In 2008, we reinforced our leading position in the sector by producing Turkey's first electric washing set with the support of TUBITAK. Today, we have registered our leadership in the sector by having our work on innovation approved by the Turkish Patent and Trademark Office with over 300 design registrations. With the strength we take from our past, we continue to lead the sector with innovative designs, architectural project design and superior service understanding.

Lyre combines aesthetics and functionality with its stylish and modern design. With its lacquered sandstone body, durable Corian top and integrated recessed LED lighting, it is both stylish and practical. The ergonomic sink module and spacious storage areas optimise your workspace by prioritising order and practicality. Lyre, which adapts to every space with its modern lines, is an elegant and functional solution for beauty and health centres.

DREAM BED

Dream Bed, which stands out with its modern design and superior ergonomics, is the perfect choice for professional care areas. While the leather-covered cast sponge offers long-term comfort by fully adapting to the body, it can be adjusted effortlessly with its 3-motor electric mechanism. Thanks to the control system with remote control, it can be easily switched to different positions. While the removable head sponge provides personalised comfort, it offers a combination of aesthetics and elegance with only white colour option. Dream Bed offers an ideal bed solution for beauty, health and care centres by combining elegance and functionality.
